January 2008: Potty Training Exceptional Children

Next Meeting

Join us as PPST meets on Friday, January 18th, 2008 from 7pm to 9pm.

Topic

Like many milestones in a child's life, potty training comes with challenges for everyone. This may be even more true when an exceptional child is involved, and the more mainstream books and advice may not be helpful. Rae Ann Brodie Kaylie, M.Ed., is an Early Childhood Special Education Consultant with over 17 years' expertise working with young children, families and professionals. She has been an Intervention Specialist and team leader, instructor and special needs Sunday School teacher. She joins us to discuss strategies for dealing effectively with this important stage in an exceptional child's life.

About the SPEECH PATHways Foundation

SPEECH PATHways is the only comprehensive pediatric speech-language pathology clinic in Carroll County, Maryland, offering services since 1999. Owner Kimberly A. Bell, M.S., CCC-SLP, has been a speech and language pathologist for over ten years. She and her associates offer a wide variety of specialized pediatric programs in addition to traditional speech and language services. In 2007, Kimberly organized the nonprofit SPEECH PATHways Foundation to help provide funding and speech therapy resources for those who might otherwise not be able to afford services. The PPST Group is one of the Foundation's active support services.
